

NAMC Earth Day Printables

Print, cut out and laminate these shapes for some fun Earth Day activities using modelling dough! The paintbrushes can be used to demonstrate the importance of recycling, by using them to mark designs on rolled out dough. When there's no space left on the "paper," recycle it and roll it out again. How much dough would we throw away if we didn't recycle?

Paint or color wooden clothespins to match each flower cutout. Children can match flowers to the stems, and then arrange them to create a modelling dough garden for Earth Day!
